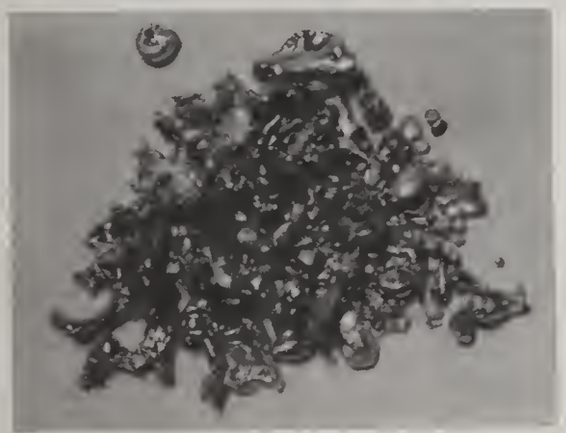
LAST SILVER DOLLAR

The last silver dollar to contain 90% fine silver was struck in 1935. We have been hoarding 1935-San Francisco silver dollars now for over a year for this special offering. While generally selling in the range of $10.00 per coin, we have selected several rolls in the Fine to Very Fine category and have reduced the price to sell at a super bargain price of only $8.25 each. Our offer for 10 pieces is even better at $80.00 ... and for those of you who want to fill up the tube with a full twenty pieces, they're yours for $157.50. Rush your orders to us as we feel this issue is considerably under valued. Prices on these coins were considerably higher several years ago but a quantity was introduced into the market depressing prices. This supply has dried up and this coin is starting to edge upward again.

Order No. 4-242 San Francisco 1935 Silver Dollar Special - Fine-Very Fine Condition
1 piece - $8.25 10 pieces - $80.00 20 pieces (full roll) - $157.50

SILVER BULLION



In February we offered 1½ oz. of silver for $5.99. We sold out. We've just acquired a small supply and are repeating this unusual offer which is under the official bullion price. The silver is in granule form and is great for a gift or for display. We have a limit of 1 packet per customer.

Order No. 4-243 Silver Granules: $5.99

1934-S DOLLAR

With a total mintage of just 1 million we really think this coin is ready to move. Normally retailing in the $10.00 area we offer ours which are in Fine condition at a special price of $7.75 ea. We have lowered the price even more for those who desire a full roll. Orders for 5 or more will be sent in a plastic tube for protection.

1897 BU Silver Dollars

The 1897-P silver dollar struck at the Philadelphia Mint is included in most Want Lists. With a total mintage of 2.823 million pieces, this issue ranks as a potential winner in investment circles. We have carefully watched this issue for some time and notice that few, if any, sales are being recorded, while demand remains high. This, along with the fact that the issue has been until recently only accepted as a common date coin, makes its potential for increase very high. All coins are from original rolls. ONLY ONE TO A CUSTOMER.

Order No. 4-250 1897-P BU Dollar - $16.50 each

UP PERISCOPE ... Fire One!

From the smelly (no airconditioning), cramped, early "S" boats to the modern, every comfort, top secret nuclear powered vessels, this collection embraces over 30 years of submarine history. Here are most of the famous boats of World War II that sank over five million tons of Japanese shipping. The Tautog (cover shown at left) sunk 26 enemy ships, the Thresher sent over 66,000 tons to the bottom of the Pacific. The famous Squalus (which sunk off of New England and was later raised and recommissioned as the Sailfish) is also included. Altogether there are over 100 heroic covers including many boats that were lost in action.

The covers include "deep-dive" covers, keel laying, commissioning, shake-down cruises, ports-of-call, and others, each cancelled aboard the individual sub. The artwork is excellent and we doubt if there is another collection quite like this one. Any ex-submariner, or naval buff would be proud to own it.

Although most of the covers are pre-war, also included is the collection of Senator Russel B. Long, sent to him by Admiral Hyman Rickover. These are all nuclear boats and one of the enclosures is actually hand-signed by the Admiral who is the Father of our Atomic Navy.

The old salt who owns this collection is very reluctant to part with it but his grog ration is running low. (He just read our write-up and groaned, "Shivver me timbers, if some lubber doesn't gaff this collection, I'm gonna give up booze and keep it meself".)

Order No. 4-251 Submarine Collection: $400.00

Obverse

SUPERIOR TO DISTRIBUTE INSPIRATION MEDAL

A numismatic first! — Medallic Art Company, America's preeminent fine art medalists, with the cooperation of Frank Eliscu, distinguished American sculptor, has developed the first two-part art medal ever produced in this country.

The obverse features Pegasus, the winged horse, (symbol of artistic inspiration in early Greek mythology) being released from the hand of God. The reverse portrays man and his inspiration united in peaceful harmony.

But while every medal has two sides, Eliscu's has four. His "inspiration" has two additional surfaces within itself. As the medal is parted, the inside reveals, via interlocking concave and convex images, a dramatic portrayal of man and his struggle to capture and control inspiration.

"Inspiration", a truly beautiful and unusual 2 1/4" medal,is now being offered to collectors in extremely limited editions of Solid Bronze, or Pure Silver. Each is attractively packaged in its own handsome jeweler's case. As the first two-part medal ever commercially produced in this country, it is sure to evoke widespread interest and technical acclaim, and demand will be great.

RYUKYU ISLANDS (OKINAWA) STAMP SPECIAL

These islands, a U.S. Trust Territory since we won them from Japan in World War II, have long been a favorite with U.S. collectors. Since the islands were returned to Japan two years ago their stamps have headed the list among Japanese collectors. Their popularity is so strong, in fact, that buying prices in Japan far outstrip the Scott Catalog listings. Since we try to give our readers the best advantage in prices, in many cases we have priced the following offers below the Japanese buy prices. Be sure to take advantage of our special offer. You are sure to be pleased. All stamps are in fine mint condition. NOTE: SHEETS OF 20 (the way the Japanese collect) ARE AVAILABLE IN MANY CASES AT 20 TIMES THE SINGLES PRICES. ORDERS WILL BE HONORED WHEREVER POSSIBLE.

(Please order these stamps by Scott Catalog number)

Such famous men as Sam Ervin, George Aiken, John Stennis, Edward Brooks, Hugh Scott, and John Tower are included. We doubt if another collection like this exists.

UNIQUE SPACE FLIGHT COVER COLLECTION

Unique!

"One of a kind"

A Superb Collection!

We have seen many beautiful collections in our years of business but this collection is the finest of its type we have ever run across. There are 425 different covers in this collection dating from the February 1959 Discoverer satellite launching through the May 1969 Apollo 10 Recovery covers. There are 160 recovery covers all cancelled on board the ships sent out to recover the returning American astronauts and spacecraft. These recovery covers are exceedingly scarce since, 1. in the early stages of the recovery program, nobody knew how to get these covers and, 2. nobody really was interested. In the later stages these covers were limited to one to two per person. Dealers were never able to order quantities. There are recovery covers from the unmanned Gemini and the Apollo flights, and covers from the Scott Carpenter, Gordon Cooper and other early astronauts. There are flight covers from dozens of the early probing and research flights such as Explorer, OSO, Ranger, Syncom, Asset (Space glider), ECHO, and other flights. This collection is quite something. We sincerely hope that it will be purchased by someone who appreciates its unique character. It should really be cherished as, in years to come, it will be virtually impossible to duplicate.

HIGHWAY POST OFFICE

We have just purchased a magnificent 20 volume collection (1000 plus covers), of these elusive covers. As you know, these covers are cancelled on a mobile van (literally a traveling post office) which moved between towns and cities. This was part of an experiment by the P.O. during the 50's in an attempt to pick-up and process the mail more rapidly. It's obvious that the attempt failed as the service was discontinued, yet this collection is a record of that attempt. We have never seen a catalog of these covers so we have no way of knowing if the collection is complete. Judging from the size of it, if it isn't it is very near to being. We feel sure that you will agree with us that this collection is well worth adding to your holdings. All covers are in fresh clean condition.

SHIP COVERS

Special

Once before (about a year or so ago) we had a special offer of ship cancellation covers. We knew that they were popular but we were amazed at the overwhelming response to our offer. Well, the long and the short of it is that we have been quietly accumulating these covers since that time. We now feel that we have enough covers to offer again. We are certain this offer will be a sell-out, but at least some of you will have a chance to add these interesting covers to your collections. The covers we now have are a random mixture dating from the 30's through the 60's. We feel certain you will be pleased with the selection we send.

Type IV Mail-O-Meter Vending Machine Coil

Scott #482

Back in the days when the Postal Service didn't issue coils (or was just beginning to) there were private companies to whom imperf stamps were sold for private distribution. These companies applied their own distinctive perforations and dispensed these stamps in their own machines. Private vending machine coils are booming in popularity and nowadays they realize 1-2 times catalog in auction (I know, we are always in there bidding). We feel that this offer is especially attractive as the stamps are scarce and the condition is Extra Fine, NH. What more could you want?

1969 GRANDMA MOSES IMPERFORATE BETWEEN ERROR

Scott #1370a

We usually offer our readers U.S. freaks and other unusual items but our offers of errors are far and few between. One of the reasons is that they are just extremely rare. We are pleased to offer this one because we remember being contacted years ago when it was discovered outside San Diego, California. It has been gratifying to watch its progress over the years. This stamp is extremely popular, embodying as it does art, Americana, and just plain good design. Judging from our sales of Grandma Moses needlepoint kits many of you really like it. This error is a true error being imperf between. We have only a small supply (actually 5) of these pairs so you are advised to get in touch with us as soon as possible to reserve a copy. All stamps are in VF-NH condition. We feel sure you will like them.

Cook Island Semi-Postal Souvenir Sheets

Scott #B34-8, B39-41, B42-6

Issued in honor of Christmas 1973 and Easter and Christmas 1974, these little sheets sparkle with vivid colors. These little sheets, being major numbers, tend to be sold out quite rapidly. If you don't already have these sheets be sure to order promptly. All sheets are in fine, mint condition.

Order No. 4-279 Cook Island Semi-Postal Souvenir Sheets: $14.95

1973 Haiti Olympic Souvenir Sheets

Although this is a relatively late issue we feel it should be offered to you due to its double significance. Not only is it an Olympic item, but it pictures the Israeli athletes who were assassinated at Munich. We feel sure you will concur that these sheets deserve a place in every collection.

Order No. 4-280 1973 Haiti Olympic Sheets: $2.95

1965 Burundi 'Coin' Stamps

Scott #B15-22 and CB1-8

Issued for no other reason I suppose than to advertise their coins and to create "different" stamps, these sets are none the less interesting because the era of "round" stamps seems to be behind us now. For awhile it was a fad and a number of countries issued such stamps. To record that time 10 years ago every collection should contain at least one set of these interesting adhesives. All are in fine mint condition.

1943-S ZINC CENTS

The 1943-S Lincoln cent was from a mintage of 191.6 million pieces. Most collectors know the 1943 issue was struck in zinc due to a shortage of the critical war material copper. These coins usually attract much interest when encountered in circulation due to their grey appearance. Our supply will be sold in rolls which were originally wrapped back in 1943 and unopened since. All coins are uncirculated, however some may show signs of normal deterioration which will appear to dull their surface.

Our special low price is below wholesale.
